

- This product is provided under license from Promega Corporation and The Regents of the University of California.
- Under the terms of those licenses the use of this product and derivatives thereof (“the Materials”) is strictly limited to that of a research reagent for use in drug discovery programs.
- Buyer acknowledges that the wild-type and mutant recombinant *Coleoptera luciferase* nucleic acid and protein (“UC Patented Material”) is the subject of U.S. Patent Nos. 5,583,024, 5,674,713 and 5,700,673, assigned to The Regents of The University of California.
- The UC Patented Material, or any material that contains or incorporates the UC Patented Material, may not be transferred or licensed to any other party, or be used for commercial purposes by any other party, without a commercial license or the express written consent of The Regents of The University of California.
- The Materials may be used solely for internal research, and no right to use the Materials for any human *in vivo*, diagnostic, therapeutic, or commercial application is hereby conveyed to Buyer.
- Additionally, the Buyer may not:
  - (1) use the Materials in the course of providing a service or data to third parties;
  - (2) transfer the Materials to any third party or to any place other than Buyer’s premises, provided that the Buyer may transfer the Materials to a third party solely for the purpose of allowing such third party to perform services on behalf of Buyer so long as such third party is required to either return the material to Buyer or certify destruction of the Materials after performance of the services;
  - (3) attempt to alter, modify or re-engineer the Materials in any way, or extract or transfer any genetic material from the product to another organism; or
  - (4) sublicense the rights granted herein.
- Buyer is not prohibited from using the Materials to discover or develop products that it intends to sell for consideration as long as those products do not contain any Materials.
- If Buyer has purchased breeding rights to an animal model, Buyer may have the animal model bred by a third party, provided that such third party
  - (i) does not use the animal model for any purpose other than breeding for the benefit of Buyer,
  - (ii) destroys or returns the animals upon conclusion of the breeding services, and
  - (iii) is otherwise legally bound by the terms of this label license.
- Buyer agrees that the Materials are and shall be owned and/or controlled by Xenogen, not by Buyer, and that these terms and conditions create a bailment with Buyer with respect to any and all such Materials.
- Buyer agrees that all intellectual property rights relating to the Materials (including, but not limited to, those rights concerning the composition, methods of production, or uses, of the Materials) are and shall continue to be owned and/or controlled by Xenogen and not by Buyer.
- However, Xenogen shall not claim ownership of any invention made by Buyer using the Materials but which relates to subject matter other than the Materials.
- Buyer may terminate this bailment at any time upon written notice, and Xenogen may terminate this bailment in the event of breach of this label license by Buyer.
- In the event of termination hereof, Buyer shall destroy or return all Materials to Xenogen.

This product is provided under a license from Promega Corporation. Under the terms of that license, the use of this product and derivatives thereof is strictly limited to *in vivo* research use. Researchers may use this product in their research and they may transfer derivatives to others for research use provided at the time of transfer a copy of this label license is given to the recipients and the recipients agree to be bound by the terms and conditions of this label license. In addition, researchers performing *in vivo* bioluminescent imaging must do one of the following: (1) use luminescent assay reagents purchased from Promega or Caliper for all determinations of luminescent activity resulting from the research use of this product and its derivatives; or (2) contact Promega to obtain a license for the use of the product and its derivatives in conjunction with luminescent assay reagents not purchased from Promega or Caliper. No reach-through payments shall be owed to Promega relating to an organization’s commercialization of products that are discoveries resulting from the research use of this product or its derivatives, provided that such products of the organization do not fall within the valid claims of any issued patents assigned to or licensed by Promega, or that such commercialization would not be a violation of the terms of this label license. No right to use this product for any diagnostic, therapeutic, or commercial application is hereby conveyed to the purchaser of this product. Commercial application is defined as any and all uses of this product and derivatives by a party for monetary or other consideration and may include but is not limited to use in: (1) product manufacture; or (2) to provide a service, information or data; and/or (3) resale of the product or its derivatives, whether or not such product or its derivatives are sold for use in research. If the purchaser is not willing to accept the conditions of this limited label license, Caliper is willing to accept the return of the unopened product and provide the purchaser with a full refund. However, in the event the product is opened, then the purchaser agrees to be bound by the conditions of this limited label license.
